Finished example.

## ALSO NEEDED:

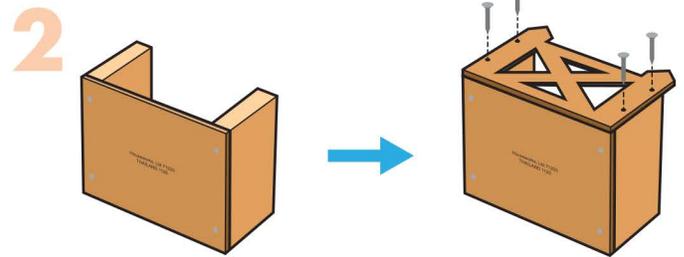

- Fine Sandpaper
- Wood Glue (optional)
- Hammer
- #2 Phillips Screwdriver

## Assembly:

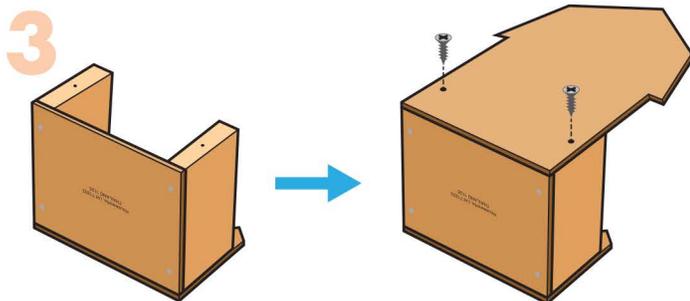

Start by sanding each wood piece to smooth any rough edges, following the grain. Glue is optional for added security. Let it dry completely.

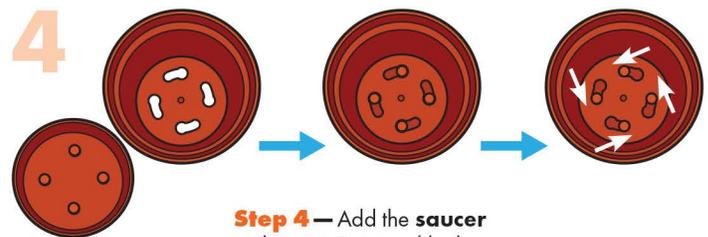

**Step 1** — Stand both **side pieces** on their long edges. Make sure screw holes are facing the same direction. Place the **bottom piece** on top. Make sure all edges are even. Nail them together with four **nails**.

**Step 2** — Turn the **project** on the open side with the screw holes facing down. Place the **fence** on top. Align the bottom corners. Nail them together with four **nails**.

**Step 3** — Turn the **project** over. Place the **back piece** on top. Align the bottom corners and screw holes. Attach them together using 2 **screws** and a #2 **Phillips screwdriver**.

**Step 4** — Add the **saucer** to the **pot**. Twist and lock them together.

Apply the **stickers**. Drop **pot with saucer** into the planter.

**Painting Tip:** If painting the **project**, paint it and let it dry completely before moving to the next step.
