2 Sides

1 Bottom

1 Sticker Sheet

2 Screws

10 Nails

Scan with your camera or visit homedepot.com/kids for an easy-to-follow guide on how to assemble this kit, plus more fun videos.
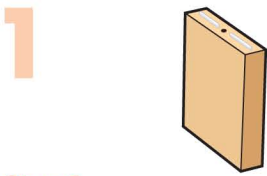

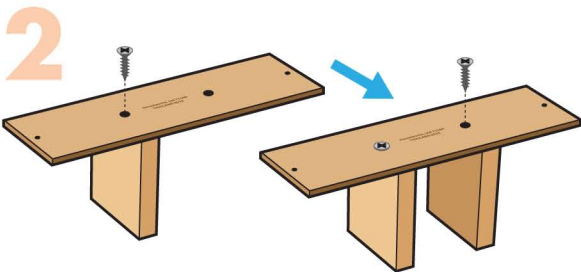

ALSO NEEDED:
• Fine Sandpaper
• Wood Glue
• Hammer
• #2 Phillips Screwdriver

Assembly:

Start with sanding each wood piece to remove any rough edges. Remember to sand in the direction of the wood grain. Glue and nail the pieces together. Allow glue to completely dry.

1
Step 1—
Stand one **divider** up with screw hole facing up. Add a little glue to the top edge.

2
Step 2—Pick up the **bottom piece**. The 2 big holes in the center are for **screws**. Align the screw holes in the **bottom piece** and **divider**. Attach them together with a **screw** using a **#2 Phillips Screwdriver**. Repeat to attach the other **divider**.
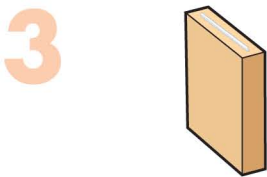

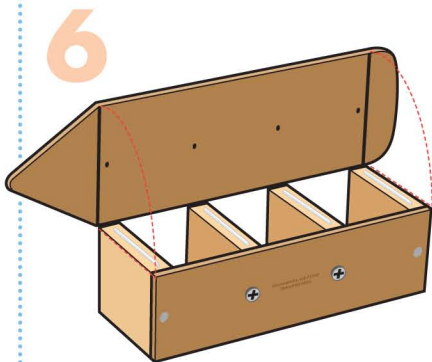

3
Step 3—Stand one **side piece** up on a shorter edge. Add a little glue to the top edge.
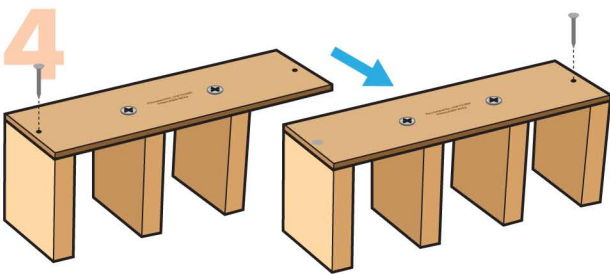

4
Step 4—Place one end of the project on top. Make sure outside edges are even. Nail them together with a **nail**. Repeat to attach the other **side piece**.
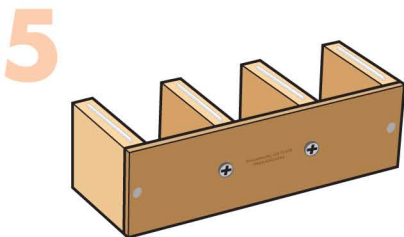

5
Step 5—Turn the project on an open end. Add a little glue to the top edge of the **side pieces** and **dividers**.
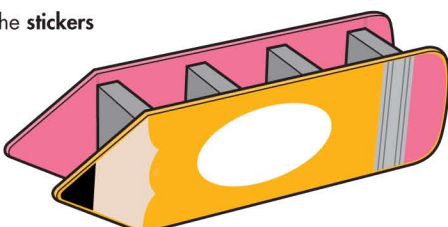

6
Step 6—
Pick up one **pencil shape**. Using the aiming lines as guide, place the **pencil shape** on top. Make sure bottom edges are even. Nail it in place with 4 **nails**. Turn the project over and repeat to attach the other **pencil shape**.

Attention: If you are painting the project, paint and let dry completely before adding the **stickers**.
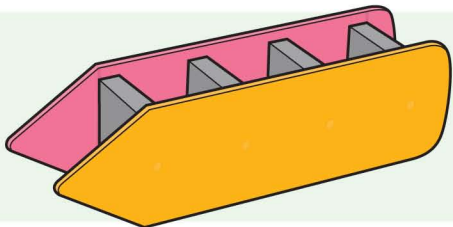

7
Step 7—Add the **stickers** as shown.

At Home: You can use a black permanent marker to draw lines like the picture if you wish.
