# PENCIL HOLDER

Made in Chonburi, Thailand exclusively for The Home Depot by Houseworks, Ltd  
2388 Pleasantdale Road, Atlanta, GA 30340 • batch #171098 • date: 05/17

Finished example.

## Contents:

## ALSO NEEDED:

- Safety Goggles
- Fine Sandpaper
- Wood Glue
- Hammer
- Phillips Head Screwdriver

## Assembly:

Start with sanding each wood piece to remove any rough edges. Remember to sand in the direction of the wood grain. Glue and nail the pieces together. Allow glue to completely dry.

1

**Step 1**—Lay the end piece flat with the nail holes on top. Start 2 long nails into the nail holes.

2

**Step 2**—Stand both side pieces up with the ends facing each other. Glue the nailed end piece on top (**DON'T cover the slots**). Make sure bottom and side edges are even. Carefully, nail them together.

3

**Step 3**—Match the screw holes in the side pieces and the triangle tip piece. Using 2 screws, attach them together.

4

**Step 4**—Turn the project upside down with the slots toward bottom. Glue the bottom piece on top. Make sure all edges are even. Using 9 short nails, nail it in place.

5

**Step 5**—Lay the lid flat. Glue the handle under the edge with the nail holes. Make sure the lid is centered on the handle and edges are even. Using 2 short nails, nail them together.

6

**Step 6**—Slide the lid into the slots.

**Attention:** If you are painting the Pencil Holder, paint ONLY the handle and outside of the Pencil Holder. Do not paint the lid or slots. Painting the lid and slots will make the lid stick in place!

Add the stickers as shown above.
